

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience

Build empathy

What have we heard them say?

What can we magine them saying?

population

increasing is

one of the way

to world

destruction

we need to creat

awarness among

people about the

caused by

population

growth

one child per

family should

be forced to

Says

The information you add here should be representative of the

it will affect

the animal

foodchain and

animal

livelihood

we should create awarness

the people to adopt and

raise orphaned children

instead of resorting to

medical centers for child

birth so that the orphaned

children who are contolled

by population growth will

observations and research you've done about your users.

Give them a name and

a portrait to empathize

with your persona.

This scam

main reason

is money and

Thinks

I think there

are pros and

cons

corn is it creat

the food

,water and

living place

scarcity

I feel fertility

centres is the

reason for this

population

growth and it has

scam too

What are their wants, needs, hopes,

It will show the

tremendous

developmet of

medical field

pros is our

medical and

science field is

development

and dreams? What other thoughts

might influence their behavior?

and mindset.
